

OPTIMIZE | SPACE MANAGEMENT AND SERVICES FOR THE NEXT NORMAL

Create Spaces that Deliver More

For senior living communities, the safety and security of residents, visitors, and staff are top priorities. And as physical distancing becomes a routine part of our day-to-day operations, Sodexo helps you assess the changes that can improve the health, wellbeing, and confidence of everyone you serve. We provide a complete package to help you manage people's behaviors and help build peace of mind around safe communities.

We take a systematic and consultative approach, crafting a plan with clear guidelines and processes to support our local on-site teams to answer the needs of both our clients and the people they serve. It starts with a risk analysis and review of your current processes to identify the changes that will make a positive, meaningful impact, keeping individuals safe and your community operating as it should.

Reengineer Service Delivery

Enhanced efficiency and sustainability are integrated into all our space optimization programs.

rise with *sodexo*

Prepare your community's pathway for a successful future.

Elevate space functionality and user experiences across your community.

Your Partner for the Next Normal

Through our collaborative, consultative approach to space optimization, we will help you save time, money, and frustration as you navigate ways to deliver the best resident experience. We use a variety of tools and methodologies including space analytics solutions, user personas and journey maps, experience design, preference surveys, and more.

User Experience

- In-depth user experience assessments
- Resident, visitor & employee analytics
- Design strategy & consulting

Compliance

- Appropriate physical distancing & health and wellness layouts and floorplans
- On-site signage, visual cues, and sanitization
- Process refinement for evolving health best practices and regulatory protocols

Technology

- Touchless experiences throughout spaces
- Digital apps and personal enablement tools
- Smart building technology & strategy

Reengineer Service Delivery

- Operational excellence focus on continually adding value
- Bringing innovation and leveraging best practices
- End-to-end analysis of flows and processes
