

Move Your Community Forward with Confidence

As you continue to transform your community to strengthen safety measures, while supporting resident experience and care, Sodexo offers a systematic approach to help you do so safely and confidently. The approach incorporates robust, regulatory compliant infection control protocols. It will analyze in detail the different community spaces and the risk levels associated to all the activities inside them and will provide a unique plan adapted to your community. Using this proprietary approach developed with best-in-class practices gathered from our team of experts and experience around the world, you'll receive tailor-made advice to manage your community's operations smoothly.

We begin with an inventory of the areas and activities in your community and review each of them for the specific risks incurred with movement and traffic linked to visitors, residents, and staff. For every risk identified, we then establish solutions for mitigation in your environment. Your assigned Sodexo team will work with you through our clearly defined process and help you address the needs and opportunities that arise in day-to-day operations.

Risk Assessment

Mitigation Solution

Framework for Implementation and Control

Processes that give you the confidence to say, "Yes, we are prepared."

3 Solutions To Respond To Different Levels of Risk

1

Risk Assessment

Our Risk Awareness Matrix allows our team to identify the risk rate of the community given specific parameters

2

Disinfection Solution Per Area

Based upon the risk assessed in your community and agreed with you, we provide the appropriate solution

Low

1. Touch Points disinfecting
2. Hygiene Solutions

Medium

1. Spatial disinfecting
2. Deep cleaning & disinfection
3. Hygiene Solutions

High

1. Spatial Disinfecting
2. Deep cleaning & disinfection
3. Hygiene Testing
4. Hygiene Solutions

3

Supervision

We will provide the right supervision model to ensure:
Employees Training & Safety | Work Completion | Inspection Analysis & Reports

We provide visibility and transparency of operations with our award-winning Site Management System | “Best Enterprise Wide Transformation Project” during OPEX 2020

Creating the solution adapted to your level of risk

When we assess your risk, understanding service delivery before and after the impact, we go beyond establishing how to address your needs and identify areas of opportunity to rethink the ways our services are delivered.

Establish Disinfection Solution for Every Level of Risk

- High Risk**
closed spaces, reengineer the service delivery
- Medium Risk**
limit flows of people, minimize cross contamination, implement physical distancing
- Low Risk**
touch points disinfecting and community hygiene solutions

Supervision and Reporting

- Employee training
- Ensure employees safety
- Hygiene testing
- Insightful analysis and reports
