

**PROTECT** | CONTACTLESS SERVICES FOR A SAFER ENVIRONMENT

# Getting Back to the Business of Living

As businesses rise to greet the possibilities of a positive new normal, contactless workplaces and facilities become a vital method of minimizing potential health risks and helping the confidence and productivity of everyone you serve, whether they're employee, visitors or customers. By implementing solutions across your organization that encourage physical distancing, use digital services and promote hygienic practices, you can illustrate your company or organization's focus on well-being.

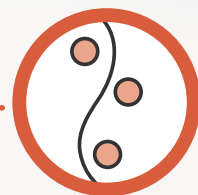

With Sodexo's unique capabilities and resources, we have created a complete range of services to help you transform your workspace – from disinfection to safety services, convenient meals, rethought reception and access controls as well as space optimization. Understanding all the dimensions of your environment and rethinking the delivery of the services to develop the next normal is an essential element to drive confidence.

Enact building-wide contactless services to ensure safety, confidence and peace of mind

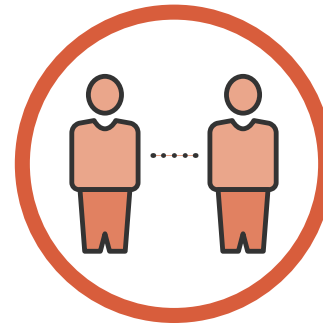

Helping you establish the "next" normal

# Limiting Exposure, Building Confidence

When you rise with Sodexo, you benefit from our systematic and comprehensive approach to a safe, healthy and productive environment. Based on a risk assessment of your business's unique requirements and needs, we propose contactless services to further enhance the safety at reception, cafes, workspaces, restrooms and beyond. The combination of our expertise is the promise that we'll design a tailor-made solution adapted to your specific needs.

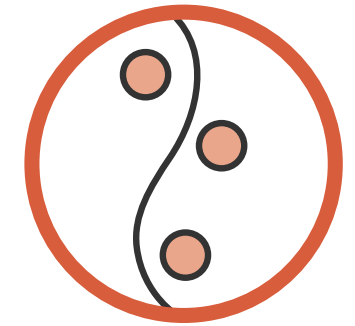

## Physical distancing

- Floor signage to help maintain 6 foot distances\*
- Limit number of individuals permitted in meeting and working spaces
- Implement sneeze guards at reception and points of interaction

## Digital services

- Use technology to remove physical contacts
- Offer touchless transactions using digital wallet
- Connect virtually with engaging online meetups

## Understanding flows and touch points

- Circulation and interactions throughout the area to be rethought
- Multiple contacts to be avoided in all parts of the environment
- Alternative solutions proposed to reengineer services

\* subject to local authority regulations
