Delivering a Powerfully Effective Clean

Regulation infection prevention and disinfection procedures are essential to reduce exposure risk for the people you serve, whether they are employees, residents, students or their families. Our consultative and comprehensive approach to disinfection cleaning promotes the health and peace of mind of the individuals who drive your business's success.

Your dedicated Sodexo team will help you assess your disinfection needs based on a risk assessment, establishing a frequency of cleaning, complete inspections to report on cleanliness and perform deep cleaning and disinfection for high-risk areas (such as restrooms, receptions, etc). We also help you prevent transmission between employees & residents with the right guidance on Personal Protective Equipment (PPE) and training.

We provide visibility and transparency of disinfecting operations with our award-winning Site Management System | "Best Enterprise Wide Transformation Project" during OPEX 2020
Establish Disinfection Solution for Every Level of Risk

Infection Prevention protocols rooted in microbiology reduce acquired infections by up to 50%

Deep Cleaning and Disinfection
- Benefits from area specific protocols to use the right chemicals and processes to fight against the contamination
- Quickly assess the effectiveness of the facilities sanitation efforts through ATP monitoring or black light tests
- Results of those inspections to be reported in our Site Management System
