Enhance Protection & Personal Safety

As your next normal takes shape, it’s important to make sure your employees, students and visitors understand how to correctly use Personal Protective Equipment (PPE) and sanitization chemicals. All individuals attending, working or visiting your schools should also understand which situations require PPE, in order to protect the health and wellbeing of everyone at your sites.

Sodexo helps facilitate the success of your protection and prevention efforts with thoughtful training and promotional materials that can be used in conjunction with your established school protocols. We will work with you to develop the messaging, strategy and execution you need to shape proper behaviors, re-assess your service scope and supply-chain and manage the overall organizational changes required to build a healthier future for your school.
Protection in Action

Providing the right tools to protect the health of your employees, faculty, staff, students and visitors is only part of the infection prevention puzzle. Showing them how to use those tools correctly, but also which ones to use depending on the situation or level of risk, brings it all together.

Change Behaviors
- Provide materials and training to promote proper hygiene & healthy living
- Inspire responsibility for the school and each individual’s space
- Raise awareness of the different solutions, adapted to the level of risks

Improve Effectiveness
- Heighten awareness to drive proper PPE and chemical use
- Anticipate any shortage and provide alternative solutions
- Develop a cooperative community approach to produce better results

Reduce Costs
- Clean areas and workspaces regularly to require less disinfection time
- Waste less of the valuable PPE and chemicals

Learn more about how Sodexo can help your school properly use PPE and chemicals, plus our complete range of programming at www.sodexorise.com | Email: schools.us@1.sodexo.com | Phone: 833-955-1496

Solutions to start and stay strong

PREPARE
Site and employee/student restart

PROTECT
Enhanced cleaning, temperature monitoring and contactless provision of services

ENABLE
Nutritious meals, ordered in advance, leveraging digital services

SUPPORT
Strategy and Planning Consultation

OPTIMIZE
Physical distancing, space management/planning and efficiency services
