

PROTECT | CHANGES TO SUPPORT PHYSICAL DISTANCING

Always Here to Help

For companies and organizations, the safety and security of the people who visit and work at their locations is top priority. As physical distancing becomes a routine part of our day-to-day operations, Sodexo helps you rise with confidence and assess the changes that could improve the health, wellbeing and confidence of everyone you serve. We provide a complete package to help you manage people's behaviors and help build confidence around safe workspaces.

We take a systematic and consultative approach, crafting a plan with clear guidelines and processes to support our local on-site teams to answer the needs of both our clients and consumers. It starts with a risk analysis and review of your current processes to identify the changes that will make positive, meaningful impact, keeping individuals safe and your business operating at peak capacity.

Reduce Contaminant Spread

Optimize Common Spaces and Circulation

Improve Building Access Control

39% of employees are concerned about returning to work – illustrate your focus on safety

rise with *sodexo*

Reimagining what
togetherness looks like

Providing a new way to interact with each other

Day in and day out, our mission is to engage our clients, support them and provide new ways of circulating and interacting with each other in their environment. With our physical distancing support program, every part of your facility will be analyzed and solutions will be implemented to ensure limited proximity contacts.

Reduce Contaminant Spread

- Implement sneeze guards
- Offer contactless payment
- Provide pre-packed food options

Optimize Common Spaces

- Change seating arrangements to support 2 meter/6 foot distances*
- Establish foot traffic flow and guidelines
- Post clear signage of physical distancing expectations

*subject to local authority regulations

Improve Building Access Control

- Establish entrance monitoring with security team
- Camera installation to monitor building capacity
- Optimize reception protocols
