Always Here to Help

For schools, the safety and security of the students, faculty, and staff, who attend or work there, is top priority. As physical distancing becomes a routine part of our day-to-day operations, Sodexo helps you rise with confidence and assess the changes that could improve the health, wellbeing and confidence of everyone you serve. We provide a complete package to help you manage people’s behaviors and help build confidence in your school’s environment.

We take a systematic and consultative approach, crafting a plan with clear guidelines and processes to support our local on-site teams to answer the needs of both our clients and consumers. It starts with a risk analysis and review of your current processes to identify the changes that will make a positive, meaningful impact, keeping individuals safe and your business operating at peak capacity.

PROTECT | CHANGES TO SUPPORT PHYSICAL DISTANCING

69% of consumers will avoid crowded places, even if the government says its safe after COVID-19*

Providing a new way to interact with each other

Day in and day out, our mission is to engage our clients, support them and provide them with new ways of circulating and interacting with each other in their environment. With our physical distancing support program, every part of your facility will be analyzed, and solutions will be implemented to ensure proximity is limited between individuals.

Reduce Contaminant Spread
- Implement sneeze guards
- Offer contactless payment
- Provide pre-packed food options

Optimize Common Spaces
- Change seating arrangements to support 2 meter/6 foot distances*
- Establish foot traffic flow and guidelines
- Post clear signage of physical distancing expectations

Improve Building Access Control
- Establish entrance monitoring with security team
- Camera installation to monitor building capacity
- Optimize reception protocols

*subject to local authority regulations
