together we rise

Preparing for the next normal
A Systematic Approach To Embracing A Positive New World

In the midst of never-before-imagined circumstances, organisations have an opportunity to set a positive course for their next normal. Embracing new ways to live, work, play and care, we can reimagine what is possible.

Quite simply put, Sodexo was made for this moment. We have the unique capabilities and resources to combine a complete range of services – from disinfection to safety services and healthy, convenient meals, wellness services and space transformation. Taking learnings from our early experience in restarting businesses in China during the COVID-19 crisis, we developed a program that helps organisations craft their future and rise with confidence.

Sodexo has created a systematic and comprehensive approach to help you prepare for and implement changes to your daily operations. These services enable organisations to rise to the challenges and possibilities of a new world for our associates, customers, partners, communities and society. When you Rise with Sodexo, you have access to a comprehensive offering of best-in-class practices created by a team of experts and our experience from around the world. Our unique program prioritizes safety, wellbeing, and productivity so everyone can get back to the business of living.

57 PERCENT of people are concerned about the safety of returning to work (Source: Ipsos)

54 PERCENT of businesses indicate that their ability to run their businesses effectively has been reduced by COVID-19 (Source: McKinsey)

- Workplace Consulting
- Services for the next normal
- Space design and management
- Energy management
- Smart maintenance
Healthy, Productive Environments for a Better Tomorrow

Rise with Sodexo is a holistic approach to build a healthy and productive environment. Together, we prepare to overcome the challenges of ensuring safety and wellbeing during crew rotation and while people return to your locations during the transition to the next normal and beyond.

With dedicated training for our employees, robust disinfection and infection control methods, employee health checks and more, your dedicated Sodexo team will work to your unique requirements and opportunities.

Because some of your employees, and ours, have been working extended periods on remote locations to ensure business continuity, it is critical to understand their health and wellbeing needs. For this, we have holistic services to address issues including stress management and mental health, helping to keep staff engaged and motivated.

Our clients benefit from our Site Management System, which we use to monitor, inspect and analyze our operations on your site for optimal visibility and transparency.

Expansive Expertise, Precise Problem Solving

Sodexo’s unparalleled global expertise positions us to take a consultative approach to our partnerships, leveraging broad experience to find the solutions that meet your organizational needs. Our robust supply chains ensure access to the items our clients need to operate safely, including PPE and sanitization products.

The Energy & Resources sectors have undergone major upheavals in recent years and this unprecedented event is testing the resilience and flexibility of organizations. As the rules of the game and work environments are disrupted, yet again, we’ve redesigned our services to help you stay ahead of the curve.

We are actively studying the future of the work site value chain and the evolution of your employees and their needs, mapping a range of services that are backed by innovative technologies.

We customize our programs to fit your organization - from corporate offices and industrial sites to upstream remote locations and offshore installations - leveraging our deep knowledge of your business to explore the relevant options that will provide a safe, secure and productive environment for your employees.
Sodexo is committed to making a positive impact. Our approach to keeping people healthy starts with understanding their journey, experiences and also understanding the social, economic and environmental challenges of the world they live in.

This is why we map out each step of their home-to-home journey and create solutions to address each need along the way. Using this people-centered philosophy, we build a custom plan to adapt the principles and services to your unique needs.
We’re a team dedicated to the spirit of rising to the challenge, evolving our work to help you achieve your goals and exceed expectations.

As we begin to build your customised plan, your Sodexo team will work with you to define governance, review your data to identify opportunities, conduct a risk assessment and define critical activities that will prepare you to open.

Even after all your people return, Sodexo will support you and your organisation with contactless services and disinfection services, providing regular reporting on work completion, inspections conducted, incidents & risks identified.
